### **DETAILED ACTION**

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made:

Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over Pearson et al in view of Heusser et al.

Pearson et al show a delivery system comprising an attachment 14 and locking clip 38. Pearson et al lacks a mixer tip. Heusser et al show a mixer tip for mixing two sources (figure 5). It would have been obvious to one of ordinary skill in the art to have modified the Pearson et al delivery system with a mixer tip as taught by Heusser et al to mix two sources.

### ***Allowable Subject Matter***

Claims 1, 3-7 and 9-12 allowed.

### ***Response to Arguments***

Applicant's arguments filed 1/22/07 have been fully considered but they are not persuasive. Applicant contends there is no motivation to combine Pearson et al with Heusser et al. Heusser et al is used to teach that it is obvious to mix two sources.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
